DDS High Power Full Band Vehicle Military Convoy Protection Bomb Jammer System 25-3600MHz

2020/07/03

Product Details Now Protecting military and VIP convoys from the threat of Remote Control Improvised Explosive Devices (RCIEDs)-road-side bombs has become a challenge and task in many parts of the world. We recommend DDS High Power Full Band Vehicle Military Convoy Protection Roof Mounted Jammer System ,It can implementing the most effective and reliable RF jamming technology and equipped with a fully-integrated broadband jamming system. it can cover, continuously and simultaneously, all the RF communication Frequencies 20MHz~3000MHz (20-6000MHz) which are most commonly used by terrorists to detonate road-side bombs (RCIEDs).Adopting the latest jamming technologies,the features ultra-high RF transmission power of 1300 watt, making a bigger shielding range around the vehicle. Beyond the installation of the convoy protection device itself, the vehicle is customized with special RF protection for full protection of the driver and passengers.System management, including activation and control and operation is carried out through a wired remote control unit installed covertly inside the driver's console unit. Once the system is activated, it transmits unique noise signal which creates "Firewall" between the transmitter (terrorist) and its receiver (explosive device), so can prevent the remote control bomb from the terrorists There is absolutely no better way to defend your VIP from the threat of radio-activated bombs.

Product Description This High Power Full Band Vehicle Military Convoy Protection Roof Mounted Jammer System is a High Power DDS Convoy Jamming System, implementing the most effective and reliable RF jamming technology and equipped with a fully-integrated broadband jamming system. It is designed for Protect military and country leaders VIP team,EOD,police investigation and arrest prisons,government buildings, wireless remote bomb and some occasions for a temporary protection to respond to some emergencies. Technique characteristics · Taking use of super-high frequency with high effective power. · Effective output power (channel power) and bigger interfere radius. · Only interfere downlink frequency of mobile system, without disturb normally working of Base Stations. · Imported elements: Slow start up design of circuit. These elements can maintain the stable operation condition with

high integration. Advantages and Features · Designed with ultra broadband frequency bands, 20MHz-3600MHz (20-6000MHz). · 12 modules plug and play design, facilitate for future power upgrading, change and maintenance. Any ruin on the modules never interfere the normal operating of other modules. · American Mil-spec standard case, shockproof and drop-resistance, available for the vehicle running in a worse field environment. · Up to 20 Frequency Bands. All Jamming Modules Designed by DDS technology. · Operators are able to regulate the working frequency band and output power of each module through the software. Configuring a specific frequency band can ensure the internal communication in emergency. · System operation can be performed in the driver's console unit. Each module can be ON/OFF. Backup battery or generator system can be optional. · Device body is no more than 90kg. · Continuously and simultaneously interference to the common used RF signals. · Equipped with high power generator to ensure excellent low noise operational capabilities. · Integrated backup battery system for continuous silent operation and fast start. · Integrated smart active cooling system to make sure the device working continuously. · Antenna is installed with a covert design. · Video camera with LCD monitor both inside and outside the vehicle provide rear viewing and monitoring High DDS solution (25-6000mhz Option) - 25-100Mhz - 100-500Mhz - 500-1000Mhz - 1000-2000Mhz - 2000-3000Mhz - 3000-3600Mhz Accessories: Power cable Antennas User manual Machine Monitor software function:

- Remote control switches of each machine.
- Remote viewing each machine working state.
- The power output of each machine remote adjustment.
- Remote viewing offline log of each machine.
- Mail receiving each machine working state.

The system can set permissions to log on. Application Fields High quality jammers widely use in Military Units, Prison, Police, Bomb Disposal and Security Services. Protect military and VIP team from the road-side remote improvised explosive device (RCIED) attack detonated by the terrorists. Moreover, It can prevent terrorists using GPS location to track the vehicles efficiently. Used for EOD. Before EOD, wireless telecommunication signals surrounding the bomb must be blocked effectively to prevent the terrorists detonating the the bomb through the wireless remote control devices and avoid the huge casualties. It can be applied that the common used telecommunication frequency will be blocked when the Police arrest the criminals in order to prevent the criminals gang or Police insider leaking the confidence through the wireless equipments ,so that the arrest collapsed. It also make the criminals not be able to remotely control the bomb in the key entrance of the building so that Police can quickly access to the building and round up the criminals to avoid the casualties. Protecting the boarder and army patrol from the attack of road- side bomb RCIED denotated by the terrorists. It can be used to prevent terrorists remotely controlling the bomb bursting points in military protection zone,government buildings and some other important places. It can also make the criminals hidden in the military protection zone not communicate with the outside gang to leak the confidence. In the event of the partial ground war, this wireless jamming system can prevent the enemy laying the bomb denotated by the wireless remote control in advance. In order to protect the land surface chariot attacking troops, tank and soldiers' lives. It can also fixed in some occasions for a temporary protection to respond to some emergencies. Note: The jamming distances we mentioned on website are for customer's reference only. The actual jamming distance will be varied

depending on the signal strength and the use location and if full charges, etc.
