How can I block Blackline GPS Javelin tracker in my car?

2019/08/28

Hi Nicholas! Javelin is one of the tracking products of Blackline GPS. Before you get the answer to your question, you must know some details about this tracking device. First of all, Javelin is not the ordinary GPS tracker. It is a professional tracking device that uses A-GPS tracking technology to do its location monitoring job. All GSM/GPRS and GPS frequency bands are used by Javelin for tracking purposes. Indeed, Blackline GPS Javelin tracker has removal detection and alert system that sends a message via SMS and e-mail to the tracking device owner about Javelin was removed. By the way, it is mounted with two 120 lb magnets but there are other mounting options as well (tie-wrap, screws, Velcro and adhesive). Javelin is also well protected against harsh environmental conditions (condenses all humidity and has IP65 protection standard). To make sure that you are not tracked by Blackline GPS tracking device without dismounting it and triggering an alert, you can block Blackline GPS Javelin tracker and be safe from professional complex tracking of your vehicle.
