Need Help for Streaming - [Solved] 2019/10/03

Hello. I'm trying to become a Twitch/YouTube Streamer. I have a couple of issues that I'd like help with. First of all, I have a PC with AMD FX6300 and Radeon RX 560 Graphics. I am using OBS with AMD encoder, 2000 bitrate, and 59.94 FPS. Now whenever I try to stream Fortnite, I tend to receive major ping spikes in game. I already made threads about this elsewhere where someone told me this is due to me not being connected to my Wifi via Ethernet. My router is R7000 Nighthawk with C700 Modem. Both NETGEAR. My ISP is Comcast. In my house, the bottom floor is the only location of the ISP cable. This led me to need a wifi adapter since my PC is located on the second floor directly above it. My wifi is used by family members, but all of their devices are on the 2.4 GHz channel whereas I am on the 5 GHz. Basically, I'd like to know how I can stream without any issues without having to move the Modem/Router or Pc. If possible, I'd like to know if I could get another router and connect it wirelessly to either the router/Modem downstairs and use router #2 as my Ethernet. Any thoughts?

cell phone jammer Hampton
