We carry a specialized range of jammers designed to distupt remote control (RC) of a drone / quadcopter and its gps signal. By this most of them will automatically slowly ground itself. Drones can be more than just an annoyance. Because they can reach high into the air, on the ground and in the water. UAV drones literally add a new dimension to eavesdropping and spying on facilities, individuals and infrastructures in a wide variety of environments and industries. They have the power

to shrink the realm of public safety, privacy and physical security. Few other technologies have such power. Are drones spying on you? Stealing your top secrets? Watching your movements? Exposing your contacts? Drone laws remain ambiguous worldwide and it will take governments years to set limits on the ways in which drones can be used. Drones can even be used as a explosives carrier or as a terrorist propaganda on a mayor aired sports and cultural events.
