Windows 10 wifi 150m max download on 3 different adapters with gig service. 2019/08/30

I have a Dell Inspirion 5559 which has 802.11ac. I have 1gig service that I just upgraded to. With default adapter with latest driver I can only get a download around 120m with 40m upload. I have tried two different USB adapers both Netgear one a6100 and their latest Nighthawk AC1900 with the same download speeds with the highest being 150m download. I have tried disabling antivirus and firewalls, latest USB drivers and pretty much everything suggested. I can put laptop next to router same thing so signal strengh is not the problem. I have two Iphone 8s and they download around 450m and thats on the second story of my house. If I switch to 2.4 versus 5.0 all that does is cut my speed in half. I have tried ethernet but adapter is only 100m so no help. Any thoughts?

cell phone jammer Riverside
